

Matheus Azevedo *Software Developer*

 azevedev  azevedev@gmail.com  +55 (61) 9 9108-8699  Brazil - Brasília

About me

I'm Senior Full-Stack Software Developer with over 8 years of experience specializing in scalable architectures, microservices, and end-to-end development. I possess deep expertise across PHP (Laravel), Ruby on Rails, JavaScript (Vue.js, React, Nuxt.js) and Node ecosystems. With a proven track record in high-complexity projects, ranging from robust CRMs to financial management systems, I am committed to clean code, automated testing, quality features and a culture of Continuous Delivery.

Professional Experience

- | | |
|-------------------|--|
| 10/2025 – Present | Senior Dev. Manager, H&W Publishing <ul style="list-style-type: none">• Leadership: Lead a cross-functional team of 6 developers managing multiple internal projects.• Core Focus: Architecting complex integrations between payment gateways, checkout systems, affiliate fee distribution, and logistics services.• Process Improvement: Optimized team delivery velocity by creating a culture of Continuous Delivery (CD) and collaborating with technical stakeholders to streamline workflows. |
| 04/2024 – 09/2025 | Senior Full-Stack Developer, Ecosys Auto <ul style="list-style-type: none">• Tech Stack: Laravel, Nuxt 3, Microservices Architecture.• Systems Engineering: Developing a comprehensive store management ecosystem encompassing finance, inventory, marketing, ads and CRM modules.• Key Achievements: Designed and maintain the end-to-end CRM module, including a robust WhatsApp API integration for automated communication. |
| 03/2023 – 03/2024 | Mid-Level Mobile & Backend Developer, FitLab <ul style="list-style-type: none">• Tech Stack: Ruby on Rails, React Native (Monolith).• Mobile Development: Primary focus on iOS, with successful implementation of Android-specific integrations, managed by me.• Optimization: Enhanced backend performance, improved system documentation, and engineered a high-availability Queues module for background task processing. |
| 05/2022 – 02/2023 | Mid-Level Full-Stack Developer, Zehta <ul style="list-style-type: none">• Tech Stack: Laravel, Livewire, React, Vue.js, Python, Flask, Tailwind CSS.• Consultancy: Delivered high-quality code across diverse client projects for a software house based in Brasília - Brazil. |
| 01/2021 – 04/2022 | Mid-Level Full-Stack Developer, ShipSmart <ul style="list-style-type: none">• Tech Stack: PHP (Laravel), Vue.js, Tailwind CSS, Microservices.• Integrations: Developed complex integrations with the DHL API for logistics tracking.• Data Migration: Spearheaded the aggregation of legacy data catalogs into the modern system and built a custom internal ticketing platform. |
| 11/2020 – 12/2020 | Junior Developer, Inteligeo - Federal Police Dept. <ul style="list-style-type: none">• Tech Stack: Vue.js, PHP, Node.js.• Key Project: Developed a custom heat-map visualization tool integrated with Government APIs and Google Earth.• Mobile UX: Optimized the mobile experience, leading to a measurable increase in user satisfaction for field agents |

- 06/2019 – 11/2020

FullStack Developer (Junior), *Diarix*
 - **Tech Stack:** Laravel (PHP), Vue.js, Ionic.
 - **Design Pattern:** Implemented Domain-Driven Design (DDD) within a monolithic architecture.
 - **UX/UI:** Collaborated on web and mobile interface design, resulting in a significantly reduced "time-to-purchase" and a more seamless user journey.
- 10/2018 – 10/2018

Hackathon (Junior Dev.), *NASA Space Apps*
 - **Tech Stack:** React Native + Python.
 - **Main Function:** Led prototyping and mobile development for our mobile app.
 - **Position:** Placed **11th out of 50** qualifying teams in the finals.
- 08/2017 – 05/2019

Web & Mobile Developer (Internship), *CJR - Junior Company*
 - **Tech Stack:** Ruby on Rails, React Native, and TypeScript.
 - **Key Function:** Main focus on Web Projects, for different types of clients. Mostly smaller scope, with a few bigger exceptions.
 - **Contribution:** Contributed to the HR department, assisting in talent acquisition and performance evaluations.

Skills

HTML, CSS3 (+7 years)	● ● ● ● ●	Ruby on Rails (6 years)	● ● ● ● ●
JavaScript + TypeScript (6 years)	● ● ● ● ●	Node JS (5 years)	● ● ● ● ●
Laravel (5 years)	● ● ● ● ●	Vue JS (5 years)	● ● ● ● ●
Unit Testing (5 years)	● ● ● ● ●	PostgreSQL/MySQL + MongoDB (5 years)	● ● ● ● ●
Docker + CI/CD (4 years)	● ● ● ● ●	Python (4 years)	● ● ● ● ●
